RE: Pure Petroleum NOV Docket # 4847-11

Copy: NOV Docket # 4847-11 file
Barb Barnes, IPS
Attorney General's Office-Jeremiah Williamson

The WQD issued this NOV and Order to Pure Petroleum (Pure) for failure to submit the required Discharge Monitoring Reports for WYPDES permit WY0039268. The DEQ/WQD has received information from the Wyoming Oil and Gas Conservation Commission (WOGCC) that the facilities under management by Pure are no longer in operation in Wyoming and all personnel have been relocated out of state. At this time we have opted to close the Order and consider NOV #4847-11 to be resolved. This permit expired on December 31, 2011.

Thank you for your attention in this matter
